## ROTARY INTERNATIONAL & DISTRICT NEWS

### HEWKO OUTLINES FIVE PRIORITIES FOR STRENGTHENING ROTARY'S IMAGE

Addressing the fifth plenary session of the International Assembly, RI General Secretary **John Hewko** spelled out five priorities for strengthening the organization, ones he said would put Rotary on the best footing possible as it begins its second century. (We will see a video of this speech today)

**Eradicating Polio** Hewko said the first priority is the eradication of polio, Rotary's signature global initiative since 1985. Eradication of polio will save hundreds of thousands of children from suffering from the disease, and save the world between US\$40 billion and \$50 billion in health care costs over the next 20 years.

**Future Vision** The second priority is implementing RI's Strategic Plan and the global launch of the Future Vision Plan, The Rotary Foundation's new grant making model. "Successful implementation of Future Vision will lead to projects and programs in the six areas of focus that are better designed and more sustainable and scalable, and that will lead to greater impact," he said.

**Rotary Club Central** The third priority, developing a new tool called Rotary Club Central, will help Rotary place a value on the thousands of service projects clubs do each year. The online resource will help clubs maintain a record of past activities; set and track strategic goals and initiatives; and allow reporting of the global collective impact of club, district, and zone activities.

**Membership** The fourth priority is membership, including making Rotary more appealing and relevant to younger members.

**Humanitarian Assistance** The fifth priority is positioning Rotary more fully as a major player in global humanitarian assistance and development.

RI General Secretary John Hewko spelled out five priorities for strengthening the organization during the fifth plenary session of the International Assembly.

*February is "World Understanding Month"!*

Our Rotary work speaks to our belief that a better, more peaceful world is possible, and we need to make sure our voices are heard. K.B.
