

Fairfield Glade Rotary Welcomes Joan Fredericks

Founding Director of Fairfield Glade Resident Services Joan Fredericks is a familiar face in the

neighborhood. She spoke to the Club on the Neighborhood Watch "Care Ring" Program which now has 20 neighborhoods participating. She then thanked the club for their donation in support of The Vial Of L.I.F.E. (Lifesaving Information For Emergencies) program. The program consists of two vials, similar to a prescription bottle, with a Vial Of Life Sticker. Inside the vial the user places a medical information form indicating health status, medications being taken, and contact information. One is kept in the refrigerator and the second in a car glove box. In a situation in which the

person is not able to speak for themselves, emergency personnel would have life saving information immediately available.
